

## Jain Heritage School

**Cir No: REF/2019-20/JGi-JHS0017**

**13.06.2019**

**Thought for the day: Pleasure in the job puts perfection in the work.**

**Dear Parent,**

It is our earnest endeavor to provide our children with the latest learning programs, thereby making learning holistic and effective. **I-Math** program initiated by us focuses on developing strong thinking skills in young children, by strengthening key learning skills such as observation, reasoning, logic, lateral thinking etc. thereby liberating them from mundane rote learning. The program and its implementation is designed keeping in mind the **“Fun”** aspect of learning and inculcating a sense of exploration in children. The core objective is to drive away the dreaded fear of math in children and for them to say **“I Love Math”**.

The **I Math** program will commence on **Friday, 21<sup>st</sup> June**, for the students of **Basic Fundamentals**. The classes will be held once a week, on **every Friday**. Snacks and juice will be provided in the school at **2.15pm**. Students availing school transport will depart from school at **3.20pm**. However, parents can pick up their children from school at **2.30pm**. **(Including those availing transport)**

**Regards,**

**Principal**
