

Safe & Unsafe Workshop

Child Sex Abuse is a reality and we have to teach our children some basic safety rules for their protection. Keeping this in mind, the safe & unsafe touch workshop was conducted for Grade 1 students by the school counselors. It is a comprehensive child abuse prevention workshop specially designed for the students. It works as a tool to teach our children, the skill they need, in the prevention of child abuse/sexual abuse in their lives. The session focused on teaching the children basic skills that are designed to keep them safe from dangerous or abusive situations.
