

UNLOCKING POTENTIAL AND IGNITING JOY IN A COMPREHENSIVE LEARNING ENVIRONMENT

Initiated in 1990 by JGI, under the visionary leadership of Chairman, Dr. Chenraj Roychand, Jain Heritage School (JHS) is one of the best co-educational schools with an extended day care centre in Bengaluru. Following the CBSE curriculum, the institution ensures comprehensive learning experience by employing a holistic approach to educate and guide students. The school upholds high standards for academic achievement, intellectual growth, ethical awareness and behaviour, and sportsmanship for students.

JHS takes leadership seriously and emphasises character development. The school's vision and mission attest the commitment and dedication of faculty and staff, who induce a spirit of innovation and enrich students' academic experience. Over the years the institution has evolved its strategies and plans, but has remained deep-rooted to its vision and origin, successfully striking a balance between tradition and innovation, and continuing to provide exceptional opportunities to deserving students. The unflinching commitment to each student's intellectual, moral and physical growth creates a school which defines quality in education.

JHS believes that teachers should play a key role in student's lives. JHS faculty supports outstanding level of academic activity, while also enhancing the dignity of every individual and encouraging students to fulfil their aspirations. Thus, the faculty fulfils the founding vision of JHS and contributes to a comprehensive

learning environment.

Adventure Learning

JHS offers numerous exciting activities to encourage and develop a spirit of adventure. The carefully devised activities help discover

the value of determination and sensitise young minds to appreciate the beauty and power of nature. Going beyond chalk and talk sessions, students are encouraged to take a brisk walk in the search of wisdom that lies within the wilderness of nature. This opportunity nurtures communication skills, leadership, crisis management and team building in a conducive and challenging environment. 'Nature is the Best Teacher' - and one can learn a lot more by sheer observation. A flight of ducks can teach 'Synergy', an autumn tree can teach 'Perseverance', flowing water can teach 'Transparency', ants can teach 'Team work' and a wave

bird can teach 'Precision'.

Uplifting Through Education

The JGI Group is inspired by a shared vision for a progressive and proactive India, through the discovery of dynamic world leaders. Today, the group has grown to 85 vibrant institutions, with

corporate divisions and an entrepreneurial opportunity model. Furthermore, the group enjoys the support and patronage of the industry, academia and thousands of students and alumni who have carried its reputation forward.
